TOTEM

Passion to Deliver

NEW
MAR 2013

The world is rapidly changing into a global village. However, due to West-East divide, wealth generation and regional disparities, security is becoming a cause for concern. There is need for products & services in security sector, be it corporate security, cyber security or public security.

Totem is in preparedness to meet the challenges with world-class consulting, products & training. Totem has strength in global business & security and has wide network of manufacturers & service providers of security products & services.

As a Corporate philosophy, Totem believes in alliances and partnerships and nurtures them to reach the customers with the right solution.

Totem offers wide array of products and services for fire & security.

Products / Services on offer

1. Provide corporate security consultancy in risk assessment, Intellectual Property, physical security, financial, forensics, accounting, cyber security, identity theft, corporate fraud, and brand protection.
2. Facilitate global manufacturers / service providers to supply to police, army, and air force.
3. Distribute Indian high technology security products/ gadgets globally.
4. Collect / collate database of security professionals.
5. Consulting services: Police & Fire services in areas of identification product / source.
6. Training of staff for awareness sensitization on security issues.
7. Cyber Security Training
8. Integrated security solution for large infrastructure project including implementation with help of Totem Infrastructure Ltd.

Integrated Security Solution

FIRE UNIFORMS / EQUIPMENTS

Helmet with light-FR
 Fireman proximity suit
 Fire entry suit
 Nomex dungaree
 Fire masks
 Respirators SCBA
 Fire extinguishers
 Fire detectors
 Fire hazard cutting tools
 Kevlar gloves
 Fire fighting tender
 Telescopic tender
 High pressure pumps
 Hose pipes
 Fire suppression system

PROTECTIVE POLICE GEAR

Helmet
 Visor
 Bullet proof jacket
 Bullet proof inner jacket
 Goggles
 Bomb suit
 Guard
 Jungle boot swat
 -50° C suits (sub zero conditions)

SWAT/ERT POLICE TEAM

Police uniforms (Cotton - Poly)
 Commando dungaree
 Amplitude dungaree
 Visa endurance uniforms
 Anti microbial uniforms
 Swat shoes
 Luminous jackets
 VHF HF sets

TRAFFIC POLICE

Camera with spy cam
 Traffic cones
 Traffic uniforms

PHYSICAL SECURITY EQUIPMENTS

Bomb blanket
 Bomb trolley
 X-ray scanner
 Handheld metal detector
 Prodder

Door frame metal detector
 Handheld metal detector
 Telescopic mirror
 Mine sweeper
 Deep search metal detector
 Mirror trolley
 Explosive detector
 Mobile trace
 Street lab mobile
 Itemiser
 Under vehicle scanner
 Mobile lab scanner
 Bomb suit
 Bollards, tyre killers / Boom barriers, turnstile

POLICE EQUIPMENT

Peephole reverse viewer
 Mute electric drill
 Road block barrier
 Remote operative road block barrier
 Portable under vehicle
 Search camera system

CORPORATES

X-ray baggage scanners
 Entry scanner
 Under vehicle scanner
 RFID parking vehicle entry systems
 Parking lot monitoring

CYBER SECURITY

Internet monitoring
 Gsm monitoring – off air type
 Wifi monitoring
 Cell seeking – off air interception
 Satellite interception althurraya
 iridium inmarsat
 Broadband wimax
 Broadband jammer
 Wifi jammer
 Cyber cafe tools for monitoring
 Corporate internet monitoring software
 GPS monitor
 Miniature gsm counter surveillance
 Mobile forensics
 Cellphone data extraction
 Encase suite
 Digital forensics
 Knoll on track

FORENSICS

- Mobile forensics
- Lab forensics
- Digital forensics
- Microscopes
- Laser scanner for debris
- Voice forensics
- Cyber forensics

PROJECT / INFRASTRUCTURE

- CCTV installation
- Solar panel grid installation
- Baggage handling at airports
- City management surveillance
- Traffic management systems
- Mines safety and surveillance
- Secure and intelligent infrastructure
- Highway solar power and surveillance
- Residential colonies video door phone alarm
- Mall security systems
- Luxury housing complex safety security equipment
- LCD panels for airports, hotels, malls
- Access control for hotels, parking lots, complex
- Vehicle tracking system

ELECTRONIC SURVEILLANCE

- IR camera
- CCD camera
- Laser camera
- Video door phone
- OB telecom fiber

SURVEILLANCE EQUIPMENT

- GSM GPS surveillance
- Bag camera
- Tie camera
- Pen camera
- Mini-digital camera
- Button camera
- Mini watch DVR
- Car key camera
- F999 Listen through wall device
- F555 Listen through wall device
- Listen through wall device (Two powerful transducers)
- Electronic Listening and digital recording device
- Detect ear

- Wireless day/night cam
- Hidden camera finder
- Monocular night vision
- Binocular night vision
- Small robot
- See through Wall Radar
- Wall climbing robots

SECURITY INSPECTION EQUIPMENT

- Mirror with wheels
- Under vehicle search mirror (Square)
- Under vehicle search mirror (Round)
- Foldable mirror
- Hand-held metal detector
- Personal radiation detector
- Portable X-ray security screening system
- Ultra-low dose hand held X-ray device for fluoroscopy
- Mini metal detector
- Image X-ray security inspection equipment
- Portable walk through metal detector

EOD EQUIPMENT

- Water jet disrupter (29mm)
- Hook & line tool kit
- EOD tool kit (36-piece)
- Portable jammer
- Bomb suppression blanket & safety circle
- Electronic Stethoscope
- Non-linear junction detector

CORPORATE SECURITY

- Consultancy
- Security risk assessment

DEFENCE

- Flight Suits (Nomex)

BANKS

- ATM DVR with video analytics

PANDEMIC KIT

- H1 virus kit

OIL & GAS

- Low temperature gas tight suit

CBRN

- CBRN masks, suits, body bags

TOTEM IS AN AUTHORISED SALES PARTNER OF MORPHO DETECTION (UK) LTD.

HARDENED MOBILE TRACE

World's only Simultaneous, dual mode handheld system for a broad range of explosives detection - detects explosives and narcotics in seconds.

Detects both the positive and negative explosives ions in one sample - important explosives are found in positive mode

Simultaneously test for a wide range of explosives and narcotics in seconds

Other handhelds work in one mode at a time, and require changing components and additional samples to test for both types of ions

Checks for CWA and Toxic Industrial chemicals also.

HRX 1000 - COMPACT X-RAY INSPECTION SYSTEM

Morpho Security's HRX 1000 X-ray System is a cost effective solution ideal for screening large parcels and cargo in airports, government offices, and other business applications. The tunnel size of 100 cm (39.4 in) wide by 100 cm (39.4 in) high maximizes the effective screening region, producing exceptional images while rapidly inspecting large articles.

Sensitivity:
36 Gauge Wire Typical, 38 Guaranteed

Spatial Resolution:
1.25 mm both Horizontal and Vertical

Penetration:
31 mm Steel Typical, 29 mm Guaranteed

Contrast Sensitivity:
24 Visible Levels, 4096 Gray Levels

Tunnel Opening:
1000 mm (39.4 in) x 1000 mm (39.4 in)

X-Ray Detector
2304 channels in an "L"-shaped array.

* Other models from 500 mm to 1800 mm are also available

STREET LAB MOBILE

Built to quickly and accurately identify threats in the field, Morpho's StreetLab Mobile is a go-anywhere, user-friendly handheld unit that can identify chemical substances using Raman Spectroscopy for data capture and analysis. Rugged, yet ergonomic and lightweight, StreetLab Mobile can reliably identify liquids, powders, and solids in a single step without sample consumption or subjective interpretation.

- Identifies broad range of substances (i.e., toxic industrial chemicals, toxic industrial materials, explosives, and narcotics)
- Samples through glass, plastic, transparent– and even translucent– materials
- Analyzes pills, powders, liquids and solids

GE Digital Energy UPS 3KVA to 200 KVA—Power Quality Solutions

Application Example : Data Centre:

Mission critical processes need a power system that is cleaner and more reliable than what a typical utility can provide. GE's Power Quality products achieve power availability of up to 99.9999%, the equivalent of just seconds of downtime per year, by providing immediate UPS backup power and power switching solutions, while reducing disturbances on the system.

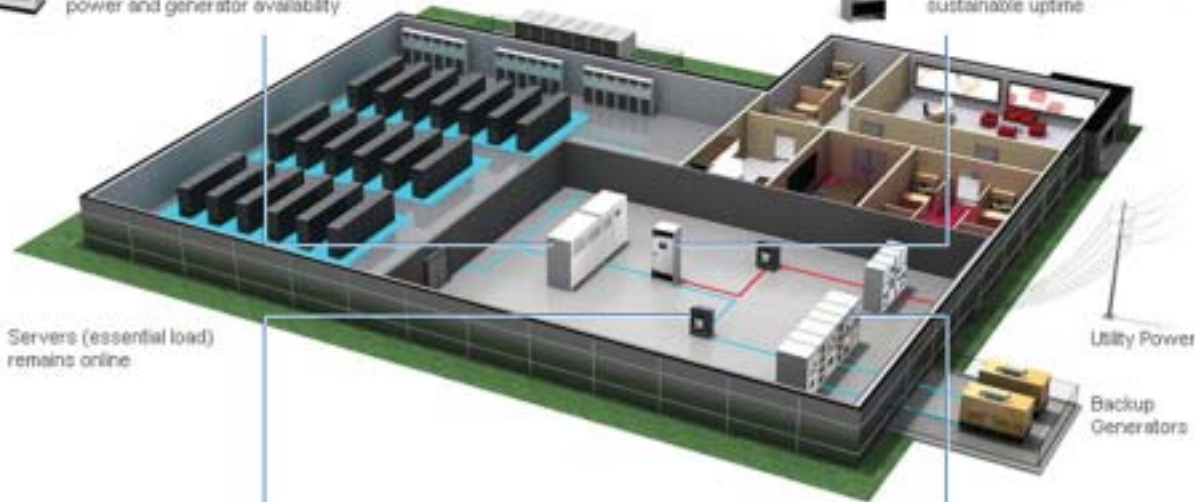

UPS

Continuously cleaning utility power and bridging the gap between loss of utility power and generator availability.

ATS

Transfers critical loads to the most stable power source, ensuring sustainable uptime.

Servers (essential load) remains online

Utility Power

Backup Generators

SPD

Protects computers, servers, etc from power surges coming from utility and generator feeds

PSG

Manages generator startup and synchronization, ensuring safety and efficiency

LP 11/31/33 Series UPS

1-1 / 3-1 / 3-3 phase
3-30 kVA

- The GE Digital Energy LP Series provide critical power protection for many applications. The LP Series is easy to install and service, optimised for the office environment. The robust design is also suitable for more traditional, industrial applications.

LP 33 Series UPS

3-phase
40-120 kVA

- The GE Digital Energy LP33 Series is a highly reliable transformerless three phase UPS system providing power protection for a wide range of critical applications from medical to datacenters and telecommunication.

SG-CE Series UPS

3-phase
80-120 kVA

- The GE Digital Energy SG Series is one of the best performing and most reliable three-phase UPS systems providing critical power protection for a wide range of applications. GE's SitePro/SG range of UPS has been successfully tested for use with all the Medical World's applications.

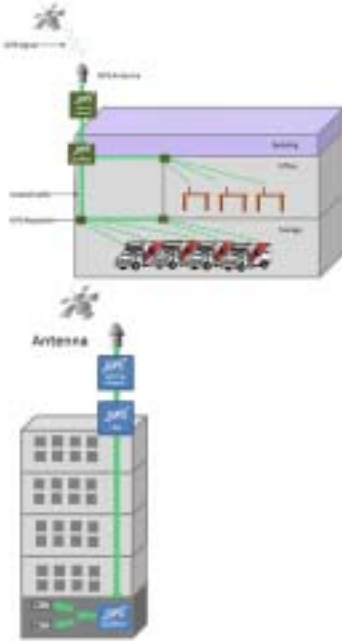

SitePro UPS

3-phase
400-500 kVA

- For highpower redundant applications, the GE SitePro can be installed with up to eight units in parallel, achieving power protection up to 4 MVA.

GPS Source connects the GPS signal to where you are. Period! We provide solutions to get GPS signals from point A to point B with a usable signal strength. Bringing the GPS signal indoors is what we are all about. If you need to increase/decrease, split, broadcast or transfer the GPS signal in any manner, we can do it.

- ▶ Lab R & D environment - designing and testing GPS equipment and solutions
- ▶ Manufacturing facilities - testing integrated GPS indoors
- ▶ Public Safety - keeping your GPS based AVL, Dispatch and Tracking System live while indoors, eliminating delays upon emergency vehicle being called out
- ▶ Defense - keeping all your GPS based weapons systems live indoors & inside any military vehicle
- ▶ Aviation - enabling the testing of aircraft navigation systems with the hangar
- ▶ Survey and Mapping - live GPS training rooms and GPS signals into service centers
- ▶ Mass Transit - know the location of your buses, taxis and fleets at all times and facilitate installing and servicing of GPS dispatch and tracking systems indoors
- ▶ Railroad: GPS is a critical component of collision avoidance Positive Train Control projects
- ▶ Telco / Timing - GPS delivered for system synchronization
- ▶ Car rental – GPS delivered to drivers while inside the rental garage
- ▶ Auto distribution centers – testing of Factory-installed GPS options
- ▶ Smart Grid Metering – remote metering of gas, water, and electric meters
- ▶ Financial - Banks and financial transaction exchanges

Garrett Metal Detectors is the global leader of security walk-through and hand-held metal detection products and training. From the Olympic Games to U.S. and international airports, Garrett has the proven experience, expertise and reliable products you need to design the most effective security screening checkpoint for your unique application. Whether it's one walk-through unit or a hundred, let Garrett Metal Detectors work with you to make your facility or event more secure.

TOPAZ SYSTEMS INC - RUGGED IT SOLUTIONS

Electronic signature capture pads, patented software tools and applications, and forensic authentication capability for any eCommerce environment. Topaz offers the highest-quality and widest variety of electronic signature capture tablets available.

A Myriad of Options: With more than 15 different models to choose from, Topaz brings the right product to your application environment. Signature pad products include passive pressure touchpads, rugged signing surfaces with electronic pens, interactive LCD displays included full-color VGA display, integrated fingerprint sensors, wireless capability, full-size inking clipboards, smallfootprint and desktop units.

Bundled Software Solution : Topaz pads include a license to use our powerful software tools, applications, and plug-ins for a complete, integrated signature solution. All support and updates are free, meaning you'll never need to subscribe to yearly or per-unit licenses or support services to keep your eSignature system up and running.

High-Quality Capture : Topaz technology captures signatures as a series of high-resolution events. From this event data, images can be generated for display purposes or forensic experts can conduct authenticity analysis.

Investigator™
The world's most powerful Protocol Analyzer and Tester

Introducing the Investigator™ AFDX (Avionics Full-Duplex Switched Ethernet) Test Solution. Powerful. Efficient. Flexible.

Investigator™ AFDX Protocol Analyzer provides the most powerful and granular triggers and filters ever developed. Investigator's efficient pre-filter memory management permits data capture over lengthy periods of time, while intuitive application software presents data in easily understood graphical and tabled display formats.

- ▶ Allows interoperability testing using a multi-speed, multi-protocol environment
- ▶ Captures data at Full Line Rates, allowing you to see exactly what's going on.
- ▶ Increases robust-ness of your device by doing forced error testing and impairment testing
- ▶ Shaves days and weeks off your debug time.

WITH INTEGRATED PHOTOGRAPHIC CAPABILITY

Night Vision with Image Capture! World's only Night Scope that takes Pictures too!!

NV 20/20

Captures black & white images on standard secure digital memory card | Images saved in JPEG & TIFF formats | Images easily tranfered to a computer | No special software needed

Features : Ambient light amplication of 650 times | Works day or night | Variable Frame Rate - user adjustable exposure time to enhance light gathering capability. From 2 fps to 30 fps | Infrared Intelligence - 3 modes.

MATRIX TELECOM SECURITY

TELECOM SOLUTIONS

Matrix is a leading manufacturer of telecom equipment for the customer premises (CPE). These solutions can be grouped under following categories - Voice Switching, Voice Messaging, GSM Products and VoIP Products.

Matrix switching products include IP-PBXs for SOHO, SMB, SME and large enterprises. Matrix also offers Digital PBX, ISDN PBX, Key Phone Systems, Hospitality PBX and PLCC Switches. GSM products include GSM FCTs, GSM Routers, GSM-POTS Gateways and GSM-VoIP Gateways. VoIP products include IP PBXs, VoIP-GSM-FXS-FXO Gateways, VoIP-POTS Gateways, Universal Gateways, VoIP ATAs and VoIP Phones (SIP Phones). Voice messaging product includes Music-On-Hold. With over 150,000 line-units installed and growing by over 1500 line-units per day, the installed base of Matrix connects over 15,000,000 calls every day. No wonder, Matrix products have won many awards.

MSA AirXpress: Streamlined for efficiency

When there are lives at stake, no one wants to make compromises. With the MSA AirXpress no one has to. In building the AirXpress, an SCBA system made for tight budgets, MSA has concentrated on those features most essential for safety and performance. High volume manufacturing processes specially designed for this stream lined system and progressive logistic methods make it possible to offer the MSA AirXpress at a price normally not available for such high-caliber professional systems. What we haven't sacrificed are the standards you've come to expect from products that carry the MSA label. To meet the specialised demands of industry and emergency response, the MSA AirXpress comes in two configurations: AirXpress Industrial and AirXpress Fire.

DuraCOR 810

Rugged MIL-STD-810 COTS Processor Platform

The DuraCOR 810 is a rugged military-grade processor system designed for high reliability applications requiring MIL-STD-810F environmental compliance with extreme temperatures, shock/vibration, and ingress.

DuraMAR 1000

Rugged Mobile IP Router (MAR-1001-03) - 5 Ethernet & 4 Serial on MIL-38999, MIL-810/704/1275/461

The DuraMAR™ 1000 is a rugged Mobile IP (Internet Protocol) router designed for netcentric operations in harsh mobile environments. The routing protocol includes including IPv6 and IP Mobility (IETF Mobile IP Standard RFC 2002)

SIEMENS

Siemens Enterprise Communications offers a comprehensive portfolio of secure IP communication solutions and services for diverse enterprise customers ranging from Industry, Call Centers, Healthcare, IT, Hospitality, Telecom, PSUs, Banks & Financial Institutions, Defense and Corporates. OpenScape & HiPath convergence solutions integrate the wireline and wireless worlds offering comprehensive options combined with an attractive return on investment at a lower Cost of Ownership.

World class Communication Platforms

Our comprehensive portfolio of communications and collaboration solutions delivers real business benefits. It can help you maximize business productivity by cutting down on lost time chasing voice mails or email, excel in customer service by giving the right agent the right information and reduce costs by improving communications efficiency.

A range of product portfolio that addresses requirements for every market segment

SOHO	Converged System HiPath 1100 Enjoy high performance, feature-rich, smart telephony with HiPath 1100. Designed for SME businesses, an ideal choice for small budget but demanding customers.	Soft Switch OpenScape Office MX An all-in-one HW and SW UC platform that provides built-in Unified Communications, voice, messaging and collaborative services to customers, while saving money.
	Converged System HiPath 3000 HiPath 3000 supports any combination of TDM, analog and IP telephony, PC clients and conferencing, which makes it ideal for mixed IT and communications environments.	Soft Switch OpenScape Office LX OpenScape Office LX an IP Telephony & UC software solution that runs on standard servers to help you get more done, faster.
	Converged System HiPath 4000 Highly available & secure, HiPath 4000 platform offers business process and workflow integration, powerful performance and cost-effective communications.	Soft Switch OpenScape Voice A carrier-grade, software-based softswitch, providing comprehensive voice features across the IP network for large-scale enterprises.

EMS

GLOBAL TRACKING

The **Osprey Personal Tracker** is an integrated, cost-effective terminal for tracking, communicating and managing personnel in Remote or dangerous locations. Drawing on the reliability of the Inmarsat satellite constellation, the Osprey Personal Tracker offers two-way communication, tracking and alerting for individuals and fleets across the globe.

- Robust, lightweight unit suitable for long-term use in all environments
- Lets you quickly locate and communicate with the nearest osprey Personal Tracker in your group or fleet
- Dedicated, protected alert button prevents false alarms
- Enables communications with multiple destinations, such as SMS and e-mail

RESPIREX

AUTHORISED DISTRIBUTOR FOR RESPIREX UK

GTB REUSABLE GAS-TIGHT SUIT

The Respirex GTB is a reusable Type IA "gas tight" Hazmat chemical protection suit covering both the wearer and the breathing apparatus. It comes supplied with safety gloves and either integral heavy duty safety boots or integral socks. Suitable for use with all types of self contained breathing apparatus. (Product Code: GTB203/215/3)

NUCLEAR AND PHARMACEUTICAL INDUSTRIES FRONTAIR - 2 SUIT

Frontair-2 suit manufactured in blue tint anti-static 150 micron PVC material. Also available in a lightweight barrier laminate material with excellent resistance to permeation by a wide range of chemicals. Large visor area allowing a wide field of vision both vertically and horizontally. Waist belt and internal air system to hood. High/low valve which is adjustable by the wearer and incorporating a ventilation system to the arms and legs (excluding airline coupling). CE marked in accordance with EN1073-1:1998.

DISASTER MANAGEMENT / CBRN/ NBC PRPS (Powered Respirator Protective Suit)

Hazmax boots and detachable mechanism. Gas tight locking cuff and glove. Gas tight zip and Velcro style flap for re-use. Gas tight seam construction certified to EN464:1994 Respirex waist support with one EPD dose meter support. (Product Code: CPS0005)

PERSONAL PROTECTIVE EQUIPMENT

ESAB operated at the forefront of welding and cutting technology. Over one hundred years of continuous improvement in products and processes, enables us to meet the challenges of technological advance in every sector in which ESAB operates.

With over 100 years of experience, and a presence in over 80 countries worldwide, ESAB is probably the most recognized brand in welding and cutting with a product portfolio, which includes:

- ▶ Standard Welding and Cutting Equipment
- ▶ Automated Cutting Equipment
- ▶ Personal Protective Equipment (PPE)
- ▶ Automatic Equipment
- ▶ Welding Consumables
- ▶ Welding Accessories

ESAB offer a comprehensive range of Personal Protection Equipment, covering everything from head to foot, for both welding and cutting and general engineering applications. All ESAB products conform to all relevant EU legislation and standards.

As Health and Safety Standards improve year on year, so does ESAB's commitment to providing a product portfolio capable of meeting the ever increasing demands of the markets we serve. As you would expect from a leading supplier of welding and cutting solutions, the ESAB product range is second to none for quality and reliability.

FAAC India

FAAC India introduced hydraulics in the gate opening sector. And have perfected this technology adapting it to a multiplicity of needs. FAAC automated systems satisfy both Intensive use and Economic use. FAAC India began making its own electronic equipment which include control equipment, radio controls, as well as safety and signaling systems.

• Tyre Killers

• Boom Barriers

• Bollards

ULTRA THIN 7" COLOR VIDEO DOORPHONE

- 17mm ultra-thin indoor unit with advanced technology.
- Popular simple design and easy operation.
- Taiwan Grade - A TFT screen promises high definition image.
- Durable, waterproof and dustproof outdoor unit.
- 7" TFT screen with low power consumption, no radiation and high definition.
- Hands free intercommunication.
- Monitoring the outdoor.

SMART CARD SOLUTIONS - RUGGED IT SOLUTIONS

MaxVision - BPAC

Handheld Rugged Computer with Built in Biometrics – Feature rich, fully functional, no-compromise rugged Ultra Mobile Personal Computer (UMPC) for every industry. MaxVision's BPac uses a rugged aluminum package that fits in a BDU pant pocket and can collect & process biometric and other relevant in-the-field information. The BPac includes a 5.6" touch sunlight readable LCD, FIPS 201.1

compliant fingerprint scanner, Iris camera with IR illuminator, face/barcode/video camera, GPS, IEEE 802.11 b & g, Choice of 3G cellular radio (GSM or CDMA), digital voice recorder, contact/contactless Smart card reader & easy-to-use biometric software or SDK support for porting users own application in Windows, all in a handheld package weighing approximately 3.5 lbs.

FBI CERTIFIED!

"BPac 8000 mobile single finger capture device, incorporating the Futronics FS99 at 500 ppi, when used in image transmission mode (PIV-071006 Mobile ID SAP 10) EBTS Appendix F Mobile iD SAP 10 using Personal Identity Verification (PIV) Single Finger Capture Device Specifications"

ELECTRONICS CORPORATION OF INDIA LIMITED

THICKNESS GAUGING SYSTEM: TGS4155

Features

- ▶ On line and non-contact measurement
- ▶ PC Based Control Unit
- ▶ Advanced recognition of error in the products resulting in saving material
- ▶ Compliance with narrow tolerance limits
- ▶ High measuring accuracy and long term stability
- ▶ Increase in productivity because of less downtime
- ▶ Short term amortisation of capital invested.

Thickness Gauging systems are used where the thickness basis weight of a flat Product is to be measured and controlled.

NUCLEONIC MOISTURE GAUGE

Features

- ▶ Moisture averaged over a time, depending on the speed of the belt, resulting in high accuracy
- ▶ Non-contact measurement, surface mounted probes and remote control electronics
- ▶ Measures moisture continuously
- ▶ Density compensation
- ▶ High efficiency He3 proportional counter detection
- ▶ PC based design with state-of-the-art technology
- ▶ Wide range of applications in moisture measurement in granular solids, powders such as coke, sinter mix, sand etc in hoppers.
- ▶ Principle of thermalisation of fast neutrons using Am241-Be fast neutron source.

NUCLEONIC LEVEL GAUGE - NLG 4149

Features

- ▶ Non-contact & non destructive measurement
- ▶ Easy to install in any industrial environment
- ▶ Compact and simple
- ▶ Micro-controller based
- ▶ Flexible and easy to calibrate
- ▶ Can count the number of times filling or emptying
- ▶ Rugged construction to withstand rough environment
- ▶ Can be used as an on-off control system for the control of liquid /solid levels in the storage vessels

ABLOY

Abloy Oy has over one hundred years experience in the manufacture of products associated with the locking and opening of doors, windows and devices. We develop, manufacture and market mechanical and electromechanical building locks, industrial locks, padlocks, door closers and door automatics, architectural hardware such as door handles and pulls, window handles and escutcheons. Our business idea is to develop sage, aesthetic and easy to use locking solutions which satisfy the needs of endusers and our construction industry partners for security and ease of access.

Abloy Oy products are designed and manufactured not only to provide high levels of security, but also to be reliable, user-friendly and aesthetically pleasing. ABLOY is your sign for security.

OCM

AUTHORISED DISTRIBUTOR FOR OCM FOR SECURITY UNIFORMS

OCM provides the latest in fabric innovations through its strategic technology.

Its vision is to become the premier supplier of technology based smart solutions for better living in a better world.

FOOT WEAR

ROAD SAFETY PRODUCTS

Features

- Uniform Code, Polishable - Full-grain Leather
- Breathability - 1000 Denier CORDURA
- Lateral Support - Riveted Steel Shank Sandwiched Between 2 Flexible Lasting Boards
- Extra Comfort - High Ankle Heel Support
- Durability, Strength - Triple Stitched Upper

COMPOSITE HARD ARMOUR PLATE CERAMIC PLATE - ICW LEVEL III AND IV

Size: 250 mm x 300mm x (10" x 12")
Shape: Multi curve | Outer Finish : Black Nylon

PASGT HELMET

The Indian Armour PASGT Helmets (US Personal Armour System Ground Troops) Helmet is designed to protect against fragments/shrapnel and other ballistic threats; with improved comfort. Used by, Special Forces, Police, Military and SWAT teams

High ballistic performance with low weight, using high-tenacity ballistic aramid fiber. Unique processing method and perfect fit suspension system.

SPEKTOR FORENSIC INTELLIGENCE

SPEKTOR is a Digital Forensic Triage technology. Built by digital forensic experts but designed for users with little or no technical skills, it is the most comprehensive digital triage tool available.

SPEKTOR Forensic Intelligence 2.8 has been released and existing PODs with current support and update agreements in place may login and update their PODs. Always listening to our clients and always improving. That's one of our objectives here at Evidence Talks and it's reflected in the growing capabilities of our flagship product, SPEKTOR Forensic Intelligence.

New Features:

Intelligence Export - A "single button" that exports data ready for import into i2®, Palantir® or similar systems. This new feature makes moving data from an investigation to an intelligence system brilliantly simple and can shorten the time from discovery to action dramatically. Exported data includes, among other things, the following:

- All file details (comprehensive file system metadata)
- All email and email account details (optionally with email content too)
- All chat and chat account details (optionally with chat content too)
- Important registry values and settings including USB device use
- Optional export of all or selected files in their entirety
- Schema document showing full relationships
- Revamped Export page in Analysis Suite

Incident Response System Intelligence - A comprehensive set of both volatile and static data that is indispensable when responding to malware, hacking or other network borne events. To complement the existing RAM dump feature, during LIVE collections we now collect, preserve, display and export a range of essential information needed when investigating potential online activities.

ACPO (The Association of Chief Police Officers) commissioned the National Police Improvement Agency (NPIA) to perform a formal evaluation of digital forensic triage techniques, tools and process in a pilot run by the Forensic21 group.

Hytera*, a leading designer and manufacturer of professional mobile radio communications equipments, is dedicated to bringing most valuable and customized solutions to clients across the world.

Founded in 1993 in Shenzhen, China, Hytera has grown to be a key player in PMR (Professional Mobile Radio) communication industry with a large customer base in more than 80 countries and regions across the world. In China, Hytera's market share ranks the 2nd, the 1st among Chinese manufacturers*; globally Hytera has reached the 2nd in Overall Terminal category.

Hytera takes advanced technologies and reliable quality as the core part of its business, and ensures more than 10% of revenue for R&D to keep pushing the limit leading and mature technologies. Hytera's competent R&D team of over 800 engineers in 3 research centers, establishes a state-of-the-art platform for digital technology research, product design and application development.

Digital Mobile Radio (DMR) is an open digital radio standard produced by European Telecommunication Standards Institute (ETSI). Being capable of voice, data and a range of other features and applications in conventional and trunking mode, DMR has received global recognitions.

Providing one of the broadest product lines of innovative thermal imaging and near-infrared illumination cameras, Opgal brings to market a unique and highly differentiated set of solutions for the Defense, Security, Safety, and Aviation markets

EyeSec: EyeSec is one of the most extensive series of thermal imaging cameras providing solutions for all security and surveillance needs. It delivers crisp and clear thermal images in total darkness, light fog or smoke, and features Opgal's state-of-the-art uncooled thermal technology.

CompactSec: The CompactSec series of commercial thermal imaging cameras was designed to offer 24/7, zero-light, all-weather monitoring. It provides superb image quality for outdoor perimeter protection in ranges up to several hundred meters.

DualSec: DualSec is a powerful day-and-night, multi-sensor observation head especially designed for security applications. It allows medium range observation and detection using state-of-the-art 640x480 17 μ or 25 μ and 384x288 25 μ technology.

RangeSec: Providing an unrivaled video quality at ranges over 13 kilometers, Opgal's RangeSec is a line of high-sensitivity, midwave (3-5 μ m) thermal-imaging cameras. Based on the company's advanced cooled technology, RangeSec was specifically designed for the high-end security, homeland, and maritime security markets.

CVS (commercial vision systems) offered by GUIDE complement and complete your IR camera network by giving you the power to see threats invisible to visible, turning night into day. Explore our products and find out how thermal imaging is a great asset in the application fields of Vehicles, Maritime, Law Enforcement, Security, Aviation, Border Security, Coastal Surveillance and etc. The use of thermographic IR cameras has revolutionized predictive maintenance inspection programs for virtually all types of industries.

Infrared thermography camera obtains target temperature information and presents as high quality thermal image, which is especially effective and accurate in diagnosis of buildings and facilities, electrical facility and mechanical equipment. Guide Infrared thermography cameras deliver ergonomic design, powerful onboard analysis functions, and perfect analysis software for post processing.

MILITARY, DEFENSE & HOMELAND SECURITY

Military and civil defense organizations and contractors need high performance materials that can withstand the most extreme requirements in safety and operations. Zetex fabrics have been thoroughly tested to ensure close conformance with the mil-specs demanded by the industry and offer exceptional thermal insulation and protection from high temperatures, fire, sparks, and molten metal splash.

NXP | NEWTEX EXTREME PROTECTIVE Personal Protective Apparel (PPA) and Products

Newtex's Extreme Protective line includes protective suits, apparel, gloves, mitts, proscenium fire curtains, and custom fabricated products. These fabrics protect workers and facilities from fire, sparks, molten metal splash, and temperatures to 2000°F.

Proximity, Kiln, & Fire Entry Suits

Made from Zetex, ZetexPlus, and Z-Flex aluminized fabrics to protect workers from fire, sparks, molten splash, and temperatures to 2000°F.

Fire & Smoke Curtains

Fully tested and approved proscenium fire safety curtains for use in theaters and other facilities to protect audiences from flames, heat, and smoke

Personal Protective Apparel

Designed for protection against heat, fire, sparks, and molten metal splash. Made from premium grade Zetex, ZetexPlus, and Z-Flex aluminized fabrics

Battery Fire Containment Products

Cases and tarps designed to prevent the spread of fire caused by lithium ion batteries in personal electronic devices.

High Temperature Gloves & Mitts

Made from Zetex, ZetexPlus, Z-Flex aluminized fabrics, and Kevlar for protection from sparks, molten splash, and temperatures to 2000°F.

CLIENTS

- Software – Microsoft, Google and other software companies
- Security – AP Police, Kerala Police, Pondicherry Police and other state police, Para military, Force One Mumbai
- Petroleum Sector – IOC / HPCI / Essar
- High Networth Individuals – VIP's / VVIP's
- UN Organization – ICRISAT, Hyderabad | ECIL, Hyderabad
- Five Star Hotels – Marriot, Westin, Hyatt, Leela, ITC.
- Bank – Reserve Bank of India
- Power & Steel – Jindal, Essar, Adani
- Govt. of India – UIDAI
- Infrastructure – Jaypee
